Celebrating half a century of incredible wines

2025 Price List – effective from Monday 7th April

It is with great pleasure that we launch our new Price List in our 50th year in business!

For half a century, we've had the honour of serving our customers, building relationships, and growing alongside Scotland's vibrant hospitality sector. This achievement is a testament to the dedication, passion, and hard work of our team, past and present, and of course our loyal customers.

Pricing 2025: The UK's alcohol duty easement extension ended in February and the changes are now incorporated into our list for 2025. From 1st April a new tariff is introduced for our business. Extended Producer Responsibility (EPR) moves full responsibility to importers to fund the full net cost of collecting, sorting, treating and recycling packaging waste we place in the market, which for us is predominantly glass bottles. The implications of this is a taxable surcharge of between 11-25 pence per bottle dependent on weight.

The reverberations of the chancellor's Autumn budget will be felt throughout hospitality from the start of the new fiscal year and we are acutely aware of the challenge this poses for our customers and indeed ourselves, and with that in mind I am pleased to follow on with some good news!

Good news: Foreign exchange rates (€ and US\$) offer more stability and currency improvements are reflected in our pricing mechanism and help cushion some of the negative impact of alcohol duty and environmental tax increases which account for the majority of wine inflation over the past year. Our suppliers have been incredibly supportive with their pricing as requested this year and I am pleased to report that through careful management, our new price list tracks well below current inflation levels. You will be reassured to hear that once again the market value, quality and price we offer across the board remains extremely competitive.

New wines: We continue to focus on sourcing quality wines with unique characteristics at all levels. We hope these wines will add value to your list and make your wine selection stand out from the crowd!

A few noteworthy additions to this year's list are provided below for your information.

Orange Wines - the rise in consumer interest for this category continues and we have added several new wines to our list which now incorporates eclectic skin contact wines from Spain, Italy, Chile, England and Georgia.

Georgian Wines - add interest to any list and these new wines are food friendly styles that consumers will enjoy experimenting with. Shilda Winery uniquely positioned at the foot of the Caucasus Mountains leverages both modern facilities and traditional methods to create a diverse range of wines.

Devon, England - we are increasing our range and these include skin contact Pinot Gris, a white aged under flor and award winning Pinot Noir showing that England can make great red wine.

Felix Solis, Spain - Cruzares are fabulous, stylish, entry level wines offering great quality and value for money and are ideal for BTG listings. The range also includes Verdejo, Organic Tempranillo and the award-winning Los Molinos Reserva Tempranillo from Valdepeñas.

USA - we have refreshed our offering from the USA with the introduction of wines from North Coast, Oregon, Lodi, Sonoma County and the Napa Valley.

Lamberti, Italy - a new range of varietals has been added from Garda. This DOC has only been in existence for eight years and already it is setting itself a high bar! The quality of Garda Bianco, Rosso, Chardonnay, Pinot Grigio and Cabernet is exceptional.

Sales: Finally, I would like to thank you for your continued support. Our knowledgeable and experienced sales managers look forward to working closely with you throughout the year to promote and add value to your wine sales.

Wishing you a successful year's trading and here's to the next 50 years!

Kind regards,
Neil Renton
